Today's teen problems are complex and boundless. The problems teenagers face on a daily basis can take many forms and manifest themselves in a number of ways.

In a world of popularity contests, online bullying, drug use and body image issues our teenagers face problems that we as a community often find difficult to understand.

As part of National Psychology Week 2009, join a panel of experts at ANU for a down-to-earth and lively discussion on the issues affecting teens, and what teenagers, and parents, can do about them.

Moderated by Genevieve Jacobs, presenter, afternoon program, 666 ABC Canberra

Expert Panel includes

Professor Don Byrne – adolescent stress and substance abuse

Dr Antoinette Harmer – child, adolescent & parenting issues

Professor Larry Saha – education and youth behaviour

Stephanie Hawke – teenage popularity

Jessica Wilson – adolescent relationships

Charlie Wood – 666 ABC youth panellist

Please note there is limited availability of parking at ANU and guests should consider alternative forms of transport or allow sufficient time to find appropriate parking. To join the ANU Public Lectures mailing list or to listen to selected podcasts, visit www.anu.edu.au/publiclectures
