

### **Pre-departure information for outgoing Science Exchange students:**

In addition to the steps outlined on the Global Programs page (<http://www.anu.edu.au/students/careers-opportunities/global-programs/applying-for-exchange-overseas>) Science students also need to take a few additional steps to make sure their final enrolment selection for their nominated institution have been approved.

Before going on exchange you will need to meet with a Science Sub Dean once you have been nominated to a specific institution. You will need to seek formal approval for the courses you will be able to take while on exchange and also apply to have your enrolment details for the relevant semester updated. You will need to bring:

- Print outs of the course outlines from the Host University.
- Enrolment Change form to enrol in a 'shell' ANU course (the Sub Dean will help you fill this out).
- OS-HELP forms (if relevant).

Once courses are approved, your letter of exchange will be emailed to your University email account. You will also be notified regarding your enrolment.

Sub Dean appointments can be booked online via the [Contact us](#) page.

**PhB Science students** will need to meet with the PhB Sub Dean. This can be done by appointment, which can be booked online via the [Contact us](#) page.

If you have any questions please contact Science Central by calling 02 6125 2809 or emailing [Science.Enquiries@anu.edu.au](mailto:Science.Enquiries@anu.edu.au)

### **Checklist:**

- I have met with the Sub Dean with regards to the course approval for my nominated institution.
- I have submitted my enrolment change form.
- I have received my Science College course approval letter (via email).
- I have verified on ISIS that I have been enrolled correctly in the Science Exchange program
