For detailed admission requirements check the Programs and Courses website → programsandcourses.anu.edu.au
## Doctor of Medicine and Surgery (MChD)

The ANU Doctor of Medicine and Surgery is a comprehensive and varied four-year program for graduate students looking to enter the rewarding field of medicine. It aims to produce graduates who are committed to compassionate, ethical health care and the expansion of medical knowledge.

- **Duration:** 4 years
- **Semester Intake:** 1 only
- **Entry Requirements:** See page 8 for detailed admission requirements and processes.
- **UAC Code:** Direct applications only
- **CRICOS Code:** 077442D

## Master of Clinical Psychology

This degree is the fundamental professional qualification in clinical psychology, and will provide you with postgraduate clinical training to practice in a range of clinical settings such as hospitals, community health centres, and private practice.

- **Duration:** 2 years
- **Semester Intake:** 1 only
- **Entry Requirements:** A Bachelor degree in Psychology with Honours or international equivalent with an average mark of at least 70%. Completion of undergraduate courses in abnormal psychology is a prerequisite and completion of undergraduate courses in the areas of psychometrics, personality, and health psychology is highly recommended. As the Clinical Program focuses on a science-based approach to clinical practice, prior acquisition of competence in statistics and research methodology is an important criterion, usually demonstrated by the successful completion of a fourth year thesis.
- **UAC Code:** 830708
- **CRICOS Code:** 003116G

## Master of Professional Psychology

The Master of Professional Psychology is an alternative pathway to your professional career in psychology, without needing an Honours degree. This program constitutes the final two years of university study, and is the only postgraduate qualification you need before undertaking a one-year internship and the relevant national examination.

- **Duration:** 2 years
- **Semester Intake:** 1 only
- **Entry Requirements:** A Bachelor degree or international equivalent with an APAC accredited sequence of courses in Psychology with a minimum GPA of 5.0/7.0.
- **UAC Code:** 830711
- **CRICOS Code:** 096441C

## Master of Public Health

Through innovative and applied education, you'll gain an understanding of contemporary public health issues, and learn practical techniques for analysing public health problems. This program provides real experience in public health through core courses designed to give you the skills you need and electives that suit your interests.

- **Duration:** 2 years
- **Semester Intake:** 1 & 2
- **Entry Requirements:** A Bachelor degree or international equivalent with a minimum GPA of 5.0/7.0.
- **UAC Code:** 830743
- **CRICOS Code:** 082346F

## Master of Public Health (Advanced)

This Advanced program incorporates a research project supervised by an academic.

- **Duration:** 2 years
- **Semester Intake:** 1 & 2
- **Entry Requirements:** A Bachelor degree or international equivalent in a cognate discipline with a minimum GPA of 5.5/7.0.
- **UAC Code:** 830744
- **CRICOS Code:** 082347E

## Master of Culture, Health and Medicine

Drawing on anthropological and other social science perspectives, and technical expertise in health-related research and practice, you will understand the nature of health, sickness, and healing in a local and global context. You will emerge with the skills to undertake social and cultural analysis of health policy and practices.

- **Duration:** 2 years
- **Semester Intake:** 1 only
- **Entry Requirements:** A Bachelor degree or international equivalent with a minimum GPA of 5.0/7.0.
- **UAC Code:** 830082
- **CRICOS Code:** 082283E

## Master of Culture, Health and Medicine (Advanced)

This Advanced program incorporates a research project supervised by an academic.

- **Duration:** 2 years
- **Semester Intake:** 1 only
- **Entry Requirements:** A Bachelor degree or international equivalent with a minimum GPA of 6.0/7.0.
- **UAC Code:** 830085
- **CRICOS Code:** 082284D

## Master of Neuroscience

How does our brain impact our behaviour and cognitive functions? How does our nervous system work? This program will give you both theoretical and practical knowledge of the modern concepts in neuroscience and methodologies employed to answer these questions and more.

- **Duration:** 2 years
- **Semester Intake:** 1 & 2
- **Entry Requirements:** A Bachelor degree or international equivalent with a GPA of 5.0/7.0 and at least eight courses in cognate disciplines.
- **UAC Code:** 830733
- **CRICOS Code:** 082342K

## Master of Neuroscience (Advanced)

This Advanced program incorporates a research project supervised by an academic.

- **Duration:** 2 years
- **Semester Intake:** 1 & 2
- **Entry Requirements:** A Bachelor degree or international equivalent in a cognate discipline with a minimum GPA of 5.5/7.0.
- **UAC Code:** 830734
- **CRICOS Code:** 082376M
POSTGRADUATE COURSEWORK PROGRAMS

What is a postgraduate coursework program?
A major component of a postgraduate coursework degree program is attendance at lectures and tutorials; examinations; and the submission of assessments such as essays and assignments.
Some postgraduate coursework programs also include a research component.
Our postgraduate coursework programs result in the awarding of the following qualifications:

**Graduate certificate:**
Approximately 24 units, or six months of full-time study.

**Graduate diploma:**
Approximately 48 units or one year of full-time study.

**Master degree:**
Approximately 96 units, or two years of full-time study (or less with credit).

**Master (Advanced) degree:**
Approximately 96 units, or two years of full-time study (or less with credit). Includes a 24-unit equivalent supervised sub-thesis.

Please note, the Doctor of Medicine and Surgery is also a postgraduate coursework Master degree, but is 192 units and four years of full-time study.

Are scholarships available?
Some of our research schools offer scholarships for specific programs. Information about these scholarships can be found in the program descriptions in this guide.
There are a number of ANU scholarships available to domestic and international students, as well as external scholarships managed by organisations outside of the University.
For more information, visit anu.edu.au/study/scholarships

How do I apply?
Domestic students apply for postgraduate coursework programs through the University Admissions Centre at uac.edu.au.
The closing date for semester one entry is the end of January, and closing date for semester two entry is the end of June.
International students can apply for postgraduate coursework programs and find more information about closing dates online at anu.edu.au/study/apply/international-applications-undergraduate-and-postgraduate

How do I apply for the ANU Medical School?
There is a separate application process for the Doctor of Medicine and Surgery (MChD). Please see page 8 in this guide for more information.

How long will it take to finish?
A Master degree from ANU usually takes two years of full-time study to complete, but most programs can be fast-tracked with recognition of previous study in a related discipline.
An exception is the Doctor of Medicine and Surgery, which takes four years of full-time study and is not able to be fast-tracked.

Can I get credit for previous study?
Your prior study might count towards your Master degree, meaning you can complete the degree in less than two years.
If you have an Australian undergraduate degree (or international equivalent), you might get six months’ credit towards your Master degree.
If you have an Australian undergraduate degree with Honours (or international equivalent) in a related field, or a Graduate Diploma in a related field, your Master degree might only take one year to complete.
Graduate Certificate and Graduate Diploma awards are available as exit options in circumstances where the two-year Master degree cannot be completed.
For more information about your program, see the detailed descriptions in this guide.
**English Language Requirements**

You must provide evidence of English language proficiency required for admission to ANU.

You may meet this requirement if your tertiary studies were entirely taught and assessed in English during the past two years.

If you are an international student and you completed your English studies more than two years ago, you will need to provide an English proficiency test certificate, such as the International English Language Testing System (IELTS) or the Test of English as a Foreign Language (TOEFL).

**English language preparation**

The ANU Access English program is a 10-week course offered by ANU College. The course runs four times a year and is designed so that you can finish the course in time to start your studies at ANU. You must already have an IELTS (or recognised equivalent) score of 6.0, with a minimum score of 5.5 in all bands, to gain entry to the course.

For all information on English language requirements visit: [anu.edu.au/pg/english](http://anu.edu.au/pg/english)

CRICOS Code: 01682E
POSTGRADUATE RESEARCH

We offer Doctor of Philosophy (PhD) and Master of Philosophy (MPhil) postgraduate research programs across a range of disciplines in health and medicine.

Our postgraduate research students have access to cutting-edge research facilities and work alongside some of the world’s most influential and innovative academics.

Pathways to a PhD

If you are interested in a PhD but your previous studies do not include a research component, you can consider an advanced Master degree, which combines coursework and research. Upon completion, you will have the skills to continue your research career and the academic qualifications needed to apply for a PhD.

You can find more information about our advanced Master programs in the postgraduate coursework section of this guide.

Postgraduate research areas

Applied epidemiology:
Our field epidemiology training program produces graduates who can investigate disease outbreaks, as well as establish and evaluate training surveillance systems.

Culture, health and medicine:
Research students in culture, health and medicine at the ANU Medical School work on a range of medical, public and international health topics utilising qualitative anthropological and other social science research methodologies, and drawing on a wide range of social science theoretical perspectives.

Epidemiology and population health:
Research in epidemiology and population health covers a range of academic disciplines, including biostatistics, epidemiology, economics, psychology, anthropology, demography, sociology and primary health care policy research.

Medical science and neuroscience:
Many of our research projects in medical science are oriented towards specific diseases such as AIDS, cancer and diabetes. In neuroscience, we provide advanced training in research approaches and techniques through laboratory-based work, computer modelling and computational neurobiology. We also offer clinical science, focusing on applied medical research.

Psychology:
Our main research themes are clinical and health psychology, cognitive and perceptual psychology, and social psychology. In addition, major strands of research on developmental psychology, the biological basis of behaviour, decision science and research methods are also carried out.
How to apply for a PhD or an MPhil

**STEP 1:**
**Expression of interest**

Prospective research students first need to identify a research project and find an academic supervisor.

If you are not sure which area of research or supervisor matches your interest please complete an expression of interest online at [science.anu.edu.au/hdr-expression-interest](http://science.anu.edu.au/hdr-expression-interest)

**STEP 2:**
**Academic supervisor**

Email your academic supervisor directly to enquire about projects and supervision. You may also submit a short research proposal.

Once an academic supervisor has been confirmed to support your application you may proceed to step three.

**STEP 3:**
**Scholarships**

A number of scholarships are available and are awarded on a merit basis. You can also talk to your academic supervisor about other sources of funding you might access to assist with living expenses and tuition fees.

Please note, international research scholarships are only awarded to the most outstanding students and are extremely competitive.

Scholarship applications can be made when completing the program application process, step four.

**STEP 4:**
**Application**

Applicants should apply online at [anu.edu.au/study/apply/anu-postgraduate-research-domestic-and-international-applications](http://anu.edu.au/study/apply/anu-postgraduate-research-domestic-and-international-applications)
**How to apply for the ANU Medical School Doctor of Medicine and Surgery (MChD)**

This information is correct at the time of printing, but is subject to change. Please visit the ANU Medical School website for the most up-to-date and authoritative information: medschool.anu.edu.au

For further enquiries, please contact admissions.medicalschool@anu.edu.au

**STEP 1:**
**Bachelor degree**

Completion of an undergraduate degree. Applicants must have completed a Bachelor degree within the last 10 years or be due to complete their Bachelor degree in the year of application.

The Bachelor degree must be an AQF level 7 qualification at minimum and must be comprised of at least three full-time equivalent years of study (3.0 FTE). Two-year accelerated Bachelor degrees (where 3.0 FTE worth of study is fast-tracked over two years) will be accepted but must be completed by the date of application.

There is no preferred Bachelor degree or prerequisite subjects for entry to the MChD program. The ANU Medical School welcomes graduates from a variety of undergraduate backgrounds and considers all applicants equally.

Applicants whose Bachelor degree was awarded more than 10 years ago will need to meet further study requirements to be eligible to apply for the MChD. Please visit the ANU Medical School website for more information.

**STEP 2:**
**Admissions Test**

Sit an admissions test. Domestic applicants must sit the Graduate Australian Medical School Admissions Test (GAMSAT). International applicants must sit either the Medical College Admission Test (MCAT) or GAMSAT.

The GAMSAT is held in March and September each year and results are valid for two years. Applicants must achieve a minimum overall score of 55, with a minimum of 50 in each section to be considered for interview.

The MCAT is held at various times throughout the year and results are valid for two years. Applicants must achieve a minimum score of 125 in each section to be considered for interview. (Note: MCAT results are accepted for international applicants only).

**STEP 3:**
**Application**

Submit an application for admission to the MChD program. The application process will vary depending on whether you are a domestic or international applicant.

**Domestic applicants**

Domestic applicants apply online through the Graduate Entry Medical School Admissions System (GEMSAS).

- There are 64 Commonwealth Supported Places available for citizens/permanent residents of Australia and citizens of New Zealand.
- There are 26 Bonded Medical Places available to citizens/permanent residents of Australia and citizens of New Zealand who held a New Zealand Special Category Visa on or before 26 February 2001

**International applicants**

International applicants apply directly to the Australian National University via the ANU website (anu.edu.au) and must include the following documentation in their application:

- Official Academic Transcript from Bachelor degree
- Official Academic Transcript for any postgraduate study (Master/PhD) if applicable
- Official MCAT or GAMSAT results
- Proof of English language proficiency
- High quality colour copy of passport

Up to 20 full-fee paying places are available for international students.

Note: International students should be aware of the Medical Board of Australia’s English proficiency requirements for internship registration in Australia, which requires a minimum IELTS score of 7 in all four components.
STEP 4:
Interview

Applicants are ranked for interview consideration based on a composite score derived from the weighted GPA and overall GAMSAT or MCAT score, using a 50/50 weighting.

If applicable, a percentage bonus may be added to your composite score for completion of a standalone Honours degree (2%), Masters by Research (2%) or PhD (4%).

Interviews for domestic candidates are conducted in Canberra in late September. Interviews for international candidates take place in July and will be conducted via online video conference (e.g. Skype or Zoom).

Grade Point Average (GPA)

The GPA calculation is based on the last 3.0 FTE years of study in your most recent eligible degree (or combination of degrees, if applicable). Eligible degrees include Bachelor, Honours and Masters by Coursework programs.

The ANU Medical School uses a weighted GPA calculation. This means that your most recent results are weighted more heavily:

- Final GPA Year = Weighted x3
- Final-1 GPA Year = Weighted x2
- Final-2 GPA Year = Weighted x1

The minimum weighted GPA for interview consideration is 5.6

STEP 5:
Offers

Offers for a place in the MChD program are based on a total combined score derived from the interview score (weighted 50%) and the composite GPA/GAMSAT or GPA/MCAT score used for the interview ranking (weighted 50%).

Applicants should be aware that meeting the minimum criteria does not guarantee an interview or admission to the program.
DOCTOR OF MEDICINE AND SURGERY (MChD)

Key facts

- Duration: Four years full-time
- Semester intake: Semester 1 only
- Indicative annual domestic fee: $36,480.00
- Indicative annual international fee: $84,143.00
- CRICOS code: 077442D

Admission requirements

For more detailed, up-to-date admission information, visit the ANU Medical School website at medicalschool.anu.edu.au

Applicants must have completed or be studying the final year of a Bachelor degree. The Bachelor degree must be an AQF Level 7 qualification at minimum and must be comprised of at least 3 years of full-time study or the part-time equivalent (3.0 EFTSL).

All applicants must meet the University's English Language Requirements for Graduate Admission.

Admission is based on a composite score derived from your weighted grade point average (25%), GAMSAT score (25%) and interview score (50%).

The minimum weighted GPA for interview consideration is 5.6.

All sections of the GAMSAT must be passed and an overall score of 55 or more achieved.

Applicants may receive a percentage bonus for completion of a standalone Honours degree, Masters by Research, or PhD.

Meeting the minimum criteria does not guarantee an interview.

Program description

The Doctor of Medicine and Surgery or Medicinae ac Chirurgiae Doctoranda (MChD) is a comprehensive and varied program for graduate students looking to enter the rewarding field of medicine as professional medical practitioners.

The MChD is underpinned by four themes:

- Medical sciences, covering a vast scope of ever-changing and expanding knowledge that forms the basis of modern medicine;
- Clinical skills, which ensures the acquisition of knowledge is accompanied by communication skills, the ability to examine patients and critically appraise information;
- Population health, addressing the relationship between humans, their society and environment;
- And professionalism and leadership, developing these vital skills of a good doctor.

The curriculum is built on important frameworks that explore the social foundations of medicine, develop understanding of the Indigenous health context in Australia, and provide insights and experience in health care in rural and/or remote Australian settings.

Consistent with the research focus of ANU, the program also develops our students’ research skills.

Pathways

The ANU Medical School offers a pathway to the MChD for high-achieving ANU students in the science stream of the Bachelor of Philosophy (PhB) Honours program. The PhB (Hons)-MChD pathway enables early acceptance into the medical program without completion of the GAMSAT. The two degrees can be completed in eight years. Some preference will be provided to students originating from rural backgrounds.

The ANU Bachelor of Health Science also offers a pathway to the MChD without having to sit the GAMSAT. At the end of their second year in the Bachelor of Health Science, up to 30 students will receive an offer of entry to the MChD, contingent upon their grade point average (GPA) and an interview process. Ten of the 30 places in the MChD program are reserved for rural and Indigenous students from the Bachelor of Health Science.
STUDENT PROFILE

Chris Wilder
Doctor of Medicine and Surgery (MChD)

“I chose medicine because of the challenge I saw in it. I always want to be challenged. I write, I run, I learn, I’m always after improvement, and I’m always willing to work for it. I’m not alone among MChD students in this regard. Most of us have some extra years under our belts, and in many cases a past career to look back on, so we know where we’ve been and where we want to go.”
**MASTER OF CLINICAL PSYCHOLOGY**

### Key facts
- **Duration:** Two years full-time
- **Semester intake:** Semester 1 only
- **Indicative annual domestic fee:** $32,160.00
- **Indicative annual international fee:** $47,880.00
- **UAC Code:** 830708
- **CRICOS code:** 003116G
- **Cognate disciplines:** Psychology

### Admission requirements
A Bachelor degree in Psychology with Honours or international equivalent with an average mark of at least 70%.

Entry to this program is highly competitive. The minimum academic requirement for entry is an Honours degree in psychology at the IIA level or better. Entry by a fourth year postgraduate diploma in psychology will also be considered. However, diplomas must (a) be of Honours standard, (b) contain a substantial research methodology component, and (c) be accredited for Associate Membership of the Australian Psychological Society. Applicants can check the acceptability of their degree by contacting the Australian Psychological Society (psychology.org.au). Applicants with qualifications obtained outside Australia must have a formal assessment completed by the Australian Psychological Society before submitting an application for study.

Additional factors considered in assessing applications are previous relevant experience, availability of supervision for the research component, and written application. The Clinical Committee will invite prospective students to a personal interview prior to making a final decision on admission.

### Program description
Our well-regarded Master program will provide you with postgraduate clinical training to practise in a range of clinical settings such as hospitals, community health centres and private practice, all while giving you a strong foundation for life-long professional learning.

The ANU Master of Clinical Psychology degree is a program of clinical coursework, clinical field placements (1000 hours) and a research project (12,000 words). Our contemporary training is founded on the scientist-practitioner model where clinical skills and interventions are considered on the basis of available scientific evidence and knowledge.

### Career opportunities
This degree is the basic professional qualification in clinical psychology. However, this degree also can form the basis of a career in other areas in psychology, as well as outside the discipline. Within psychology, graduates from this program have gone on to work as clinical psychologists, counsellors, forensic psychologists, neuropsychologists, health psychologists, organisational psychologists and sport psychologists.

---

MASTER OF PROFESSIONAL
PSYCHOLOGY

Key facts

Duration: Two years full-time
Semester intake: Semester 1 only
Indicative annual domestic fee: $32,160.00
Indicative annual international fee: $47,880.00
UAC Code: 830711
CRICOS code: 096441C
Cognate disciplines: Psychology

Admission requirements

A Bachelor degree or international equivalent with an APAC accredited sequence of courses in Psychology with GPA of at least 5.0/7.0 and successful assessment of suitability based on interview and two referee reports.

Where ranking of applications is required, the GPA will be used to determine the selection rank. All applicants must meet the University’s English Language Admission Requirements for Students.

Students must satisfy the progression requirements of provisional registration or equivalent with the Psychology Board of Australia before progressing to the final 48 units.

This program has a quota on places due to availability of supervision. 50% of places will be reserved for ANU undergraduate students. 10% of places will be reserved for Indigenous applicants and will be awarded if there are suitable applicants and the opportunities for accessing professional scholarships will be explored.

Due to the highly structured nature of this program, it is highly recommended that this program should be taken full-time. Part-time enrolment should be negotiated with the Program Convener and would require part-time with a minimum of two courses per semester, taken in the order prescribed by the Research School of Psychology. Applications must be received by the 31 October in order to be considered.

Eligibility for credit

Applicants with an AQF 8 Graduate Diploma or Honours degree with an APAC accredited sequence of courses in Psychology may be eligible for up to 48 units (one year full-time) of credit. Applicants who are deemed eligible for the full 48 units of credit will also need to satisfy the progression requirements of provisional registration or equivalent with the Psychology Board of Australia as an admission requirement.

Program description

The Master of Professional Psychology is an alternative pathway to your professional career in psychology, without needing an Honours degree.

The two-year program includes coursework on psychological assessment, interventions and professional skills; a group research project in the first year and practical placement experience in the second year. The Master of Professional Psychology is less research-intensive than Honours.

Career opportunities

A Master of Professional Psychology can lead to a psychology career in a wide range of private, government and not for profit settings.

—> science.anu.edu.au/study/master-degrees/master-professional-psychology
MASTER OF NEUROSCIENCE

Key facts

Duration: Two years full-time (or less with credit)
Semester intake: Semester 1 or 2
Indicative annual domestic fee: $32,160.00
Indicative annual international fee: $47,880.00
UAC Code: 830733 / 830734 (Advanced)
CRICOS code: 082376M / 082342K (Advanced)
Cognate disciplines: Cellular and Molecular Biology, Genetics, Biotechnology, Medicine, Anatomy and Physiology, Biological Psychology

Admission requirements

A Bachelor degree or international equivalent with a GPA of 5.0/7.0 and at least eight courses in cognate disciplines.

Eligibility for credit:

Applicants with a Bachelor degree or Graduate Certificate in a cognate discipline may be eligible for 24 units (one semester full-time) of credit. Applicants with a Graduate Diploma or Honours in a cognate discipline may be eligible for 48 units (one year full-time) of credit.

Program description

This is an intensive coursework program providing a pathway for science graduates to acquire new skills, or to extend and renew their understanding of neuroscience principles. This program is designed to give you both theoretical and practical knowledge of the modern concepts in neuroscience and the methodologies employed. You will be taught by leading Australian neuroscientists and have opportunities to gain first-hand experience of neuroscience research.

Career opportunities

Our postgraduate neuroscience programs pave the way for further studies in neuroscience and related fields, such as for a PhD.

MASTER OF NEUROSCIENCE (ADVANCED)

Admission requirements

A Bachelor degree or international equivalent with a GPA of 5.5/7.0 and at least eight courses in cognate disciplines.

Eligibility for credit

Applicants with a Bachelor degree, Honours, Graduate Diploma or Graduate Certificate in a cognate discipline may be eligible for 24 units (one semester full-time) of credit.

Program description

The Advanced program consists of one year of coursework plus one year of independent research. The coursework component will provide you with an advanced knowledge of current concepts in neuroscience, and will support those who wish to move into a neuroscience field from related areas of science and psychology but do not have a significant neuroscience background.

Your independent research will allow you to develop expertise in a nominated area through independent research.

A scholarship valued at $6,000 per year is available to exceptional students enrolled in the Master of Neuroscience (Advanced).

STUDENT PROFILE

Tom Shaw
Master of Neuroscience (Advanced)

“I’ve just started my research project, using neuroimaging to look at whether poor cardiovascular health affects a loss of myelin in the brain, and vice versa. In the future I’d like to go into research on Alzheimer’s or abnormal brain functioning.

I didn’t have undergraduate training in cellular neuroscience so the Master program was challenging at first, but it’s exactly what I want to do, so that’s kept me motivated. The teachers have all been great and very supportive too.”

→→ science.anu.edu.au/study/master-degrees/master-neuroscience
MASTER OF PUBLIC HEALTH

Key facts

Duration: Two years full-time (or less with credit)
Semester intake: Semester 1 or 2
Indicative annual domestic fee: $36,480.00
Indicative annual international fee: $50,904.00
UAC Code: 830743 / 830744 (Advanced)
CRICOS code: 082346F / 082347E (Advanced)
Cognate disciplines: Psychology, Medicine, Veterinary Science, Biology, Medical or Allied Health Sciences, Anthropology and Indigenous Studies

Admission requirements

A Bachelor degree or international equivalent with a minimum GPA of 5.0/7.0.

Eligibility for credit

Applicants with a Bachelor degree or Graduate Certificate in a cognate discipline may be eligible for 24 units (one semester full-time) of credit. Applicants with a Graduate Diploma or Honours in a cognate discipline may be eligible for 48 units (one year full-time) of credit.

Program description

Our Master programs draw on many different areas of population health giving you a comprehensive understanding of the field. They provide real experience in public health through core courses designed to give you the skills you need, and electives that suit your additional interests. Workplace-related learning can be readily incorporated for those who work in relevant public health jobs.

Study online

Students wishing to study online must come from a cognate background and should select courses that have the online delivery model and should not select courses from the “public health electives” list.

Career opportunities

These programs are designed for health professionals seeking a qualification to equip them for management; graduates wanting a qualification in public health practice; and health administrators and policy workers needing a qualification to assist their career.

Sai Lyons
Master of Public Health

“The only way for me to fit in Masters with my full-time job was to study the program all online. I’m really enjoying it, and the more I’m studying online, the more online study options appeal to me for the future.

“It frees up a lot of time and have you much more freedom in how you can spend the hours of your day outside of work.”

MASTER OF PUBLIC HEALTH (ADVANCED)

Cognate disciplines

Psychology, Medicine, Veterinary Science, Biology, Medical or Allied Health Sciences, Anthropology and Indigenous studies.

Admission requirements

A Bachelor degree or international equivalent in a cognate discipline with a minimum GPA of 5.5/7.0, and the approval of an identified supervisor for the research project/thesis.

Eligibility for credit

Applicants with a Bachelor degree or Graduate Certificate in a cognate discipline may be eligible for up to 24 units (one semester full-time) of credit. Applicants with a Graduate Diploma or Bachelor degree with Honours in a cognate discipline may be eligible for up to 48 units (one year full-time) of credit.

Program description

The Advanced program provides you with the opportunity to extend your practical, coursework experience in public health with the development and implementation of a research project. It is particularly relevant to those who wish to benefit from the research strengths of ANU and its ready access to the local and national health administration and policy scenes.

**Program description**

The Master of Culture, Health and Medicine is the only program of its kind in Australia. Drawing on anthropological and other social science perspectives, and technical expertise in health-related research and practice, you will understand the nature of health, sickness, and healing in a local and global context. You will emerge with the skills to undertake social and cultural analysis of health policy and practices. This interdisciplinary program is taught by leading academics, clinicians, and global health practitioners from across the ANU.

---

**Career opportunities**

This program will advance your career in health-related fields in development, policy and education, in government, non-government, and international organisations, and can lead to further PhD research.

C A N B E R R A

Australia’s capital, Canberra, is a thriving city of over 400,000 set within a classic Australian bush landscape. Etched with bike paths and walking trails, and serviced by reliable public transport, it’s easy, fast and affordable for students to get around.

Ranked third on Lonely Planet’s “Best cities to travel to in 2018”1, Canberra is a buzzing city that many tourists overlook when they make their travel plans.

Here’s our pick of why it’s great to study, work and live in Canberra

Enviable lifestyle
Canberra has earned the number one spot on the Numbeo Quality of Life Index list in 2017, 2018 and 2019. Canberra was also ranked the world’s best city to live by the OECD two years running in 2014 and 2015.

University town
Over 25% of the Canberra population are students2

Safest cities
Canberra is considered one of the safest cities in Australia with one of the lowest crime rates.3

Leader of the nation
You’ll have great resources at your doorstep with 12 national institutions including Australian Parliament House, the National Library of Australia, the High Court of Australia and ... ANU of course

Less time in transit
Canberra has the shortest commute times of any major Australian city. You can drive to anywhere in Canberra is less than 30 minutes so you will spend more time doing what you want to do and less time sitting in traffic

Fly conveniently
Decrease the chaotic airport rush with a short and traffic-free drive to the airport. Canberra International Airport offers over 800 flights a week around Australia, Singapore and Doha

Close to major cities
It is only a three-hour drive to Sydney and seven-hour drive to Melbourne. Or you can fly direct to either of the cities in just over one hour

Get away
Enjoy the summer with a two-hour road trip to the crystal blue waters of beaches like Batemans Bay and Nowra, or head in the opposite direction to hit the powdery slopes of the Snowy Mountains during the colder months

Cash in
Canberrans earn Australia’s highest average weekly income4

Four seasons
Canberra experiences the true climate of Spring, Summer, Autumn and Winter. Did someone say Christmas in July? You’ll also enjoy sunshine 246 days of the year

Cosmopolitan
Home to foreign missions and diplomats, Canberra has a diverse multicultural community and is home to the National Multicultural Festival.
