

Chemistry Bridging Course 2025

When: Wednesday 29 January to Friday 7 February 2025 (excluding weekend)

Location: Research School of Chemistry (Teaching Division), The Australian National University

Cost: \$600

This course specifically targets high school and college level students who wish to strengthen their chemistry knowledge with the aim of pursuing first-year chemistry. It aims to lay a good theoretical and practical foundation for first-year chemistry studies. Undergraduates or graduates who wish to improve their knowledge of chemistry may also enrol, and will benefit from the course structure and principles.

The course will focus on the fundamental principles of chemistry. The topics covered will include the study of atomic structure and periodicity, chemical bonding, nomenclature, the mole and stoichiometry, equation writing, and simple organic compounds. Students will also have the opportunity to develop some essential laboratory skills.

The course consists of eight days of lectures, tutorials and laboratory sessions. It will be held from Wednesday 29 January to Friday 7 February 2025 (excluding the weekend) in the Research School of Chemistry (Teaching Division), The Australian National University.

Cancellations must be made in writing to the Bridging Course Coordinator by Friday 24 January 2025.
